Anoushella.com Accessibility Conformance Report

WCAG Edition

(Based on VPAT® Version 2.5)

Name of Product/Version:

Anoushella.com

Product Description:

Anoush'ella's website (www.anoushella.com) is the online platform for a Boston-based Eastern Mediterranean restaurant known for its scratch-made street food rooted in Armenian and Lebanese traditions.

Report Date:

October 16, 2026

Contact Information:

Email: hello@skynettechnologies.com

Notes:

Prepared by: Skynet Technologies USA LLC, https://www.skynettechnologies.com/

Evaluation Methods Used

Anoush'ella's website was evaluated using SkynetAccessibility Scanner, WAVE, Chrome Dev Tools. Assistive technologies used in this evaluation included NVDA (screen reader), VoiceOver and Jaws as well as exclusive use of the keyboard to navigate and operate the site content and functionality.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included in Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes) Level AAA (No)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can be used only in WCAG 2.0 Level AAA.

"Voluntary Product Accessibility Template" and "VPAT" are registered service marks of the Information Technology Industry Council (ITI)

WCAG 2.2 Report

Note: When reporting on conformance with the WCAG 2.2 Success Criteria, the criteria are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the **WCAG 2.2 Conformance Requirements**.

Table 1: Success Criteria, Level A

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Supports	All non-text content has appropriate text alternatives.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	Not Applicable	The website does not contain audio-only or video-only content.
1.2.2 Captions (Prerecorded) (Level A)	Not Applicable	The website does not include prerecorded video content.
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	Not Applicable	The website does not contain prerecorded audio.
1.3.1 Info and Relationships (Level A)	Supports	Information, structure, and relationships conveyed through the presentation are programmatically determinable or available in text.
1.3.2 Meaningful Sequence (Level A)	Supports	Content is presented in a meaningful sequence.
1.3.3 Sensory Characteristics (Level A)	Supports	Instructions do not rely solely on sensory characteristics.

1.4.1 Use of Color (Level A)	Supports	Site content and functionality does not convey information through color alone.
1.4.2 Audio Control (Level A)	Not Applicable	The website does not include any audio content that plays automatically for more than 3 seconds.
2.1.1 Keyboard (Level A)	Supports	All functionality is operable through a keyboard interface without requiring specific timings for individual keystrokes.
2.1.2 No Keyboard Trap (Level A)	Supports	All interactive components are fully operable via keyboard, and users can navigate into and out of all elements without being trapped.
2.1.4 Character Key Shortcuts (Level A 2.1 and 2.2)	Supports	The website does not provide character key shortcuts.
2.2.1 Timing Adjustable (Level A)	Not Applicable	The website does not contain any time-dependent content or functionality that would require users to adjust or extend time limits.
2.2.2 Pause, Stop, Hide (Level A)	Not Applicable	The website does not contain moving, blinking, scrolling, or automatically updating content that falls within the scope of this success criterion.
2.3.1 Three Flashes or Below Threshold (Level A)	Not Applicable	The website does not contain flashing content.

2.4.1 Bypass Blocks (Level A)	Supports	Skip links are provided as the first elements in the focus order. It will help to skip to content, navigation or footer.
2.4.2 Page Titled (Level A)	Supports	The website's all webpages do have title.
2.4.3 Focus Order (Level A)	Supports	Focus order follows a logical and meaningful sequence that preserves content relationships and ensures efficient navigation for keyboard users.
2.4.4 Link Purpose (In Context) (Level A)	Supports	The purpose of each link can be determined from the link text alone or from the link text together with its programmatically determined context.
2.5.1 Pointer Gestures (Level A 2.1 and 2.2)	Supports	The website does not rely on multipoint or path-based gestures.
2.5.2 Pointer Cancellation (Level A 2.1 and 2.2)	Supports	The website functions that use a single pointer are completed when the user releases the pointer.
2.5.3 Label in Name (Level A 2.1 and 2.2)	Supports	The accessible name of each user interface component that includes a visible text label corresponds to that label text.
2.5.4 Motion Actuation (Level A 2.1 and 2.2)	Not Applicable	The website does not have functionality operated by device motion or user motion.

3.1.1 Language of Page (Level A)	Supports	The default language of the site's webpage is identified using the lang attribute in the html element.
3.2.1 On Focus (Level A)	Supports	The website's components do not initiate a change of context when focused.
3.2.2 On Input (Level A)	Supports	Changing the setting of any user interface component does not automatically cause a change of context unless users have been advised of the behavior before using the component.
3.2.6 Consistent Help (Level A 2.2 only)	Not Applicable	The content is primarily informational in nature, and does not require help systems such as chatbots, FAQs, or guidance tools.
3.3.1 Error Identification (Level A)	Not Applicable	The website does not contain forms that require users to submit information or that generate input validation errors.
3.3.2 Labels or Instructions (Level A)	Not Applicable	The website does not contain forms requiring user input or labels and instructions for completing form fields.
3.3.7 Redundant Entry (Level A 2.2 only)	Not Applicable	The website does not contain forms or processes that require users to re-enter previously provided information within the same process.

4.1.1 Parsing (Level A) WCAG 2.0 and 2.1 – Always answer 'Supports' WCAG 2.2 (obsolete and removed) - Does not apply	Supports	For WCAG 2.0 and 2.1, the September 2023 errata update indicates this criterion is always supported. See the WCAG 2.0 Editorial Errata and the WCAG 2.1 Editorial Errata.
4.1.2 Name, Role, Value (Level A)	Supports	User interface components have programmatically determinable names and roles, and their states, properties, and values can be programmatically set and updated, with changes available to assistive technologies.

Table 2: Success Criteria, Level AA

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Not Applicable	The website does not contain live synchronized media.
1.2.5 Audio Description (Prerecorded) (Level AA)	Not Applicable	The website does not contain prerecorded video content with visual information that requires audio description.
1.3.4 Orientation (Level AA 2.1 and 2.2)	Supports	The content of the website does not restrict its view and operation to a single display orientation.
1.3.5 Identify Input Purpose (Level AA 2.1 and 2.2)	Not Applicable	The website does not contain form fields that collect information about the user for which input purpose identification is required.
1.4.3 Contrast (Minimum) (Level AA)	Supports	Text and essential visual elements meet the minimum color contrast requirements.
1.4.4 Resize text (Level AA)	Supports	The website content and user interfaces support standard zoom capabilities built into modern web browsers and operating systems.
1.4.5 Images of Text (Level AA)	Supports	The site uses text instead of images of text.

1.4.10 Reflow (Level AA 2.1 and 2.2)	Supports	Content reflows appropriately at 320 CSS pixels without loss of information or functionality, and no horizontal scrolling is required for vertical content.
1.4.11 Non-text Contrast (Level AA 2.1 and 2.2)	Supports	Visual information required to identify user interface components and their states, as well as meaningful graphical objects, has sufficient contrast against adjacent colors.
1.4.12 Text Spacing (Level AA 2.1 and 2.2)	Supports	The spacing between letters, words, lines of text and/or paragraphs can be adjusted in the website's webpage.
1.4.13 Content on Hover or Focus (Level AA 2.1 and 2.2)	Not Applicable	The website does not present additional content on hover or keyboard focus that triggers the requirements of this success criterion.
2.4.5 Multiple Ways (Level AA)	Supports	The website provides multiple ways to locate webpages, including the main navigation menu and a dedicated sitemap page.
2.4.6 Headings and Labels (Level AA)	Supports	Headings and labels are clear, descriptive, and programmatically associated, helping users understand content structure and navigate efficiently.

2.4.7 Focus Visible **(Level AA)**	Supports	A visible focus indicator is provided for all interactive elements, ensuring keyboard users can easily identify their current position on the page.
2.4.11 Focus Not Obscured (Minimum) **(Level AA 2.2 only)**	Supports	Keyboard focus is not obscured by other content, and focused elements remain visible within the viewport during keyboard navigation.
2.5.7 Dragging Movements **(Level AA 2.2 only)**	Not Applicable	All functionality can be operated without requiring dragging movements. No drag-based interactions are necessary to complete tasks.
2.5.8 Target Size (Minimum) **(Level AA 2.2 only)**	Support	Interactive controls meet the minimum target size requirements.
3.1.2 Language of Parts **(Level AA)**	Not Applicable	The website does not contain content in multiple languages or sections that require language specification.
3.2.3 Consistent Navigation **(Level AA)**	Supports	The site provides consistent and repeatable navigation.
3.2.4 Consistent Identification **(Level AA)**	Support	Components that have the same functionality across the website are identified consistently.
3.3.3 Error Suggestion **(Level AA)**	Not Applicable	The website does not contain forms or input fields that generate errors requiring suggestions for correction.

3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Not Applicable	The website does not contain functionality involving legal commitments, financial transactions, or user-submitted data that requires error prevention safeguards under this criterion.
3.3.8 Accessible Authentication (Minimum) (Level AA 2.2 only)	Not applicable	The website does not include any user authentication processes requiring cognitive function tests or input of memorized information.
4.1.3 Status Messages (Level AA 2.1 and 2.2)	Not applicable	The website does not present status messages that need to be programmatically determined by assistive technologies without receiving focus.

Table 3: Success Criteria, Level AAA

Notes: Not applicable. The website was not evaluated for conformance with WCAG 2.0 Level AAA, WCAG 2.1 Level AAA, or WCAG 2.2 Level AAA.
